PRATIK PATIDAR

MERN Stack Developer | MongoDB • Express.js • React.js • Node.js

Indore, Madhya Pradesh, India • pratikpatidar7990@gmail.com • +91 8269647990 • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

MERN Stack Developer with 1.5+ years of experience engineering full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in architecting RESTful services, database modeling with Mongoose, secure JWT authentication with HttpOnly cookies, and building responsive client interfaces with Next.js and Tailwind CSS. Experienced in end-to-end feature delivery, API optimization, and Agile team workflows.

TECHNICAL SKILLS

MERN Core:	MongoDB, Express.js, React.js (v18), Node.js, TypeScript, JavaScript (ES6+)
Frontend & UI:	Next.js (App Router), Tailwind CSS, Redux Toolkit, React Hook Form, HTML5, CSS3
Backend & APIs:	RESTful API Architecture, CRUD Services, Mongoose ODM, Express Middleware, Route Controllers, CORS
Auth & Security:	JWT Authentication, HttpOnly Cookies, Password Hashing (bcrypt), Role-Based Access Control
Tools & Build:	Git, GitHub, GitLab CI/CD, Vite, Postman, Vercel, npm/yarn, Agile/Scrum

PROFESSIONAL EXPERIENCE

Techstuff Private Limited — **May 2025 – Present**
MERN Stack Developer — Indore, India

- Developed full-stack modules for client platforms: modular React frontends and Node.js/Express API services.
- Designed and implemented 20+ REST API endpoints with Mongoose schema validation, middleware error handling, and JWT authentication.
- Built MongoDB aggregation pipelines for data filtering, multi-field search, and reporting dashboards.
- Configured compound database indexes on high-traffic collections and optimized aggregation queries to minimize latency on analytical views.
- Built responsive user interfaces in React.js and Next.js from Figma design specifications.
- Implemented client-side state management using Redux Toolkit slices and Context API with local caching.
- Collaborated in Agile sprint planning, daily standups, and Git merge request reviews.

Techstuff Private Limited — **Feb 2025 – May 2025**
MERN Developer Intern — Indore, India

- Built responsive UI screens in React.js with Tailwind CSS, ensuring clean rendering across mobile and desktop devices.
- Assisted senior engineers in writing Node.js/Express endpoints and Mongoose schemas for internal tools.
- Maintained clean Git branching practices, participated in peer code reviews, and resolved QA bug tickets.

KEY PRODUCTION PROJECTS

Mercanis — B2B Procurement Management Platform
Full-Stack MERN Solution (React 18, Node.js, Express, MongoDB)

- Contributed to supplier onboarding forms with dynamic document uploads, field validation, and status tracking dashboards.
- Built backend Express routes and Mongoose models for purchase requisitions with role-based status transitions.
- Optimized catalog browsing with server-side pagination, index-backed search, and virtualized list rendering.

Enterprise HR & Payroll Portal
Internal Business Application (React.js, Node.js, MongoDB, Express)

- Built complete web portal for employee records, leave approval workflows, and monthly salary history with role-based permissions.
- Implemented secure authentication flow with JWT tokens stored in HttpOnly cookies and refresh token rotation.
- Constructed MongoDB aggregations for department-wise salary breakdowns, attendance percentages, and monthly leave audits.

EduMiracle — Educational Institute ERP Portal
Full-Stack EdTech Web Application (MERN Stack, Tailwind CSS)

- Developed student enrollment, fee collection schedules, and course batch management with online test simulator.
- Designed normalized MongoDB collections with relational references connecting student, batch, and test score records.
- Built responsive student and administration dashboards with Tailwind CSS flex and grid layouts.

EDUCATION

Bachelor of Technology in Computer Science & Engineering — **2020 – 2024**
Barkatullah University Institute of Technology (BUIT), Bhopal — **CGPA: 7.89 / 10**
