PRATIK PATIDAR

Frontend Engineer • React.js • Next.js • SvelteKit • TypeScript

Indore, India • pratikpatidar7990@gmail.com • +91-8269647990 • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Frontend Engineer with 1.5+ years of production experience across React.js, Next.js, and SvelteKit, building responsive, high-performance interfaces and owning features end to end — from Figma handoff through REST API integration to release. Backend exposure with Node.js/NestJS and MongoDB. Measurable win: cut initial JS bundle size by ~40% through lazy loading, code splitting, dynamic imports, and virtualization.

TECHNICAL SKILLS

Frontend & UI: React.js, Next.js (App Router / SSR), SvelteKit, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

State & Architecture: Redux Toolkit, Context API, React Hook Form, Zod, Svelte stores

Backend & APIs: Node.js, NestJS, MongoDB, REST API Design & Integration, JWT Authentication

Testing & Performance: Jest, React Testing Library, Manual & Cross-browser Testing, Git, GitLab CI/CD, Lazy Loading, Code Splitting, Dynamic Imports, Virtualization, Lighthouse, Web Vitals

WORK EXPERIENCE

Techstuff Private Limited **May 2025 – Present**

Frontend Engineer *Indore, India*

- Core contributor to Mercanis (B2B SaaS Procurement Platform) and internal enterprise systems; own frontend features end to end across SvelteKit, Next.js, and TypeScript.
- Collaborated with backend engineers to establish robust REST API contracts, payload schemas, and validation rules prior to UI development, accelerating integration velocity across SvelteKit and Next.js applications.
- Engineered a 20+ reusable UI component library (forms, modals, responsive tables, navigation) adopted across all company product suites.
- Optimized client performance cutting initial JS bundle by ~40% via route-based code splitting and dynamic imports; implemented virtualized scrolling for high-density datasets.

Techstuff Private Limited **Feb 2025 – May 2025**

Frontend Developer Intern *Indore, India*

- Standardized team Git/GitLab version control workflows across feature branching, merge requests, and code reviews, independently reviewing and deploying production code into releases.
- Architected modular, reusable UI components integrated directly into the core production component library, establishing standardized UI consistency across applications.
- Integrated REST APIs into production screens and resolved critical cross-browser UI/UX issues, reducing QA reopen tickets.

KEY PRODUCTION PROJECTS

Mercanis — B2B SaaS Procurement Platform **Enterprise / Production**

Stack: SvelteKit · TypeScript · NestJS · MongoDB

- Daily driver for enterprise procurement teams; owned design-to-production implementation from Figma handoffs to API integrations.
- Engineered shared design system components and eliminated rendering bottlenecks using memoization and virtualized lists.

Payroll & HR Platform **Enterprise / Production**

Stack: Next.js · TypeScript · NestJS · MongoDB · MCP (Model Context Protocol)

- Built responsive Next.js frontend with Redux/Context state management against a NestJS backend for company-wide HR operations.
- Designed OAuth-style token exchange and built an MCP (Model Context Protocol) server exposing payroll & calendar tools for AI assistant workflows.

EduMiracle — Student ERP Portal **Enterprise / Production**

Stack: Next.js · TypeScript · Tailwind CSS · MongoDB · Gemini AI

- Built solo full-stack ERP for a real coaching institute: live attendance, Recharts mock test analytics, and CBT exam simulator.
- Integrated Gemini AI for real-time automated doubt solving with role-based administrative control.

EDUCATION

B.Tech, Computer Science & Engineering **2020 – 2024**

Barkatullah University, Bhopal *CGPA: 7.89*
