PRATIK PATIDAR

React.js Developer | Next.js • Redux Toolkit • TypeScript

Indore, Madhya Pradesh, India • pratikpatidar7990@gmail.com • +91 8269647990 • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

React Developer with 1.5+ years of experience engineering high-performance Single Page Applications (SPAs) and SSR web platforms using React 18, Next.js, and TypeScript. Specializes in building scalable component architectures, managing complex client-side state with Redux Toolkit, and integrating RESTful APIs. Experienced in translating Figma designs into responsive, accessible interfaces with a strong focus on rendering performance, reusable UI patterns, and clean code standards.

TECHNICAL SKILLS

Core & Languages:	React.js (v18), Custom Hooks, Virtual DOM, TypeScript, JavaScript (ES6+), HTML5, CSS3
Frameworks & UI:	Next.js (App Router, SSR, SSG), Tailwind CSS, CSS Modules, Headless UI, Component Architecture
State & Forms:	Redux Toolkit (RTK Query), Context API, React Hook Form, Zod Schema Validation
APIs & Networking:	REST APIs, Axios Interceptors, TanStack Query, WebSocket client, JSON Web Tokens (JWT)
Tools & Performance:	Git, GitHub, Vite, Webpack, Code Splitting, Postman, Chrome DevTools, Agile/Scrum

PROFESSIONAL EXPERIENCE

Techstuff Private Limited — **May 2025 – Present**

React Developer — Indore, India

- Developed key client-facing modules for B2B enterprise applications using React 18, Next.js App Router, and TypeScript.
- Built a reusable UI library of 25+ components including data tables with multi-column filtering, date-range pickers, and dynamic modals.
- Configured Redux Toolkit slices and RTK Query endpoints for centralized state management, automated query caching, and optimistic UI updates.
- Eliminated unnecessary component re-renders by utilizing React.memo, useCallback, useMemo, and fine-grained state normalization.
- Integrated secure RESTful APIs with centralized Axios interceptors for automatic Bearer token injection and global error handling.
- Collaborated daily with UI/UX designers and backend developers in Agile sprints to review API contracts and deliver pixel-perfect user flows.

Techstuff Private Limited — **Feb 2025 – May 2025**

Frontend Developer Intern — Indore, India

- Built responsive web pages from Figma designs using React.js, Tailwind CSS, and standard semantic HTML5 elements.
- Implemented client-side form validations using React Hook Form and Zod schemas, handling conditional field dependencies gracefully.
- Diagnosed and resolved cross-browser rendering discrepancies across Chrome, Firefox, and Safari, improving overall UI consistency.

KEY PRODUCTION PROJECTS

Mercanis — B2B Procurement Management Platform

Enterprise Client Solution (React 18, Next.js, TypeScript, Tailwind CSS)

- Engineered end-to-end frontend workflows for RFQ creation, vendor bidding comparison, and purchase requisition approval stages.
- Implemented virtualized data grids to render datasets containing thousands of line items without scroll lag or layout shifts.
- Added real-time status badges, multi-criteria filter drawers, and one-click Excel/CSV export capabilities for procurement teams.

Enterprise HR & Employee Management Portal

Internal Business Application (Next.js, TypeScript, Redux Toolkit, Node.js)

- Developed an administrative portal for employee directory management, attendance tracking, and leave application approval queues.
- Structured role-based routing (Admin, Manager, Employee) with JWT authentication and persistent session management.
- Built interactive reporting dashboards showing department-level headcount metrics, leave balances, and monthly attendance summaries.

EduMiracle — Educational Institute ERP System

Full-Stack Web Platform (React.js, Next.js, Tailwind CSS, REST APIs)

- Built the student and faculty web portal managing batch admissions, fee payment records, and course curriculum distribution.
- Developed an online mock assessment module with automated timer countdowns, question navigation palettes, and instant score summaries.
- Designed clean, responsive layouts optimized for desktop and mobile screen viewports using Tailwind CSS grid and flexbox utilities.

EDUCATION

Bachelor of Technology in Computer Science & Engineering — **2020 – 2024**

Barkatullah University Institute of Technology (BUIT), Bhopal — **CGPA: 7.89 / 10**
