PRATIK PATIDAR

Full Stack Developer • React.js • Node.js • NestJS • MongoDB

Indore, India • pratikpatidar7990@gmail.com • +91 8269647990 • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with 1.5+ years of hands-on experience building production web applications using React.js/Next.js frontends and Node.js/NestJS/MongoDB backends. Proven track record in designing scalable REST APIs, implementing secure JWT authentication, and optimizing database queries. Experienced in end-to-end delivery from database schema modeling to reactive, accessible UI deployment.

TECHNICAL SKILLS

Frontend:	React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), Tailwind CSS, Redux Toolkit
Backend:	Node.js, NestJS, Express.js, REST API Architecture, JWT (HttpOnly Cookies), Middleware
Databases:	MongoDB, Mongoose ODM, Schema Design, Aggregation Pipelines, Indexing
State & Validation:	Redux Toolkit, React Hook Form, Zod Schema Validation, Context API
DevOps & Tools:	Git, GitLab CI/CD, Vite, Postman, Vercel, Docker basics, Lighthouse Performance

PROFESSIONAL EXPERIENCE

Techstuff Private Limited — **May 2025 – Present**

Frontend Engineer — *Indore, India*

- Architected full-stack features for Mercanis (B2B SaaS Procurement platform) and enterprise tools using Next.js on the frontend and NestJS/Node.js on the backend.
- Designed and deployed 15+ RESTful API endpoints with DTO validation, error interceptors, and JWT-based role authorization (Admin, Manager, Employee).
- Engineered MongoDB aggregation pipelines and compound indexes, decreasing query response times by 35% on multi-tenant reporting queries.
- Built reusable UI components with React/TypeScript and integrated complex forms with Zod validation, delivering smooth validation feedback.
- Optimized full-stack performance cutting client bundle sizes by 40% via dynamic imports and implementing server-side caching on frequently queried endpoints.

Techstuff Private Limited — **Feb 2025 – May 2025**

Frontend Developer Intern — *Indore, India*

- Assisted in developing Node.js/Express API services and connected MongoDB models for internal project management tooling.
- Built responsive client screens in React.js and Tailwind CSS, collaborating with senior developers on Git feature-branch workflows.
- Resolved cross-browser styling issues and wrote unit tests using Jest, achieving 80%+ test coverage on core utility modules.

KEY PRODUCTION PROJECTS

Mercanis — B2B Procurement Platform — Enterprise Client Project

Stack: SvelteKit · Next.js · TypeScript · NestJS · MongoDB

- Contributed across frontend and backend for enterprise procurement: built supplier management UI and associated NestJS CRUD microservices.
- Implemented MongoDB schemas with Mongoose hooks for audit logging and timestamping on high-value procurement requests.
- Designed responsive tables with server-side pagination, debounced search, and CSV export functionality.

Payroll & HR Management Platform — Internal Enterprise SaaS

Stack: Next.js · TypeScript · NestJS · MongoDB · MCP

- Engineered internal payroll management web application with Next.js frontend and NestJS/MongoDB backend.
- Built token-based authentication flow with secure refresh token rotation and role-based route guards.
- Integrated Model Context Protocol (MCP) server exposing backend calendar and payroll inspection tools.

EduMiracle — Coaching ERP Portal — Full-Stack EdTech

Stack: Next.js · TypeScript · Tailwind CSS · MongoDB · Gemini AI

- Solo engineered comprehensive student management ERP: fee management, attendance tracker, and computer-based test simulator.
- Built MongoDB database schemas with relational indexing across student, batch, and test result collections.
- Integrated Gemini AI API for real-time automated homework and doubt assistance with role-based admin oversight.

EDUCATION

B.Tech in Computer Science & Engineering — **2020 – 2024**

Barkatullah University Institute of Technology (BUIT), Bhopal — **CGPA: 7.89 / 10**
