PRATIK PATIDAR

React Developer • React.js • Next.js • Redux Toolkit • TypeScript

Indore, India • pratikpatidar7990@gmail.com • +91 8269647990 • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

React Developer with 1.5+ years of specialized experience engineering high-performance Single Page Applications (SPAs) and SSR web apps using React.js, Next.js, TypeScript, and Redux Toolkit. Deep expertise in React hooks, state normalization, component lifecycles, and translating Figma designs into modular, pixel-perfect interfaces. Passionate about bundle optimization, accessibility (a11y), and zero-friction user experiences.

TECHNICAL SKILLS

Core React:	React.js (v18), Custom Hooks, Virtual DOM, Component Lifecycle, JSX / TSX, Concurrent Features
Frameworks & Styling:	Next.js (App Router, SSR, SSG), TypeScript, Tailwind CSS, CSS Modules, Styled Components
State Management:	Redux Toolkit (RTK Query, Thunks), Context API, React Hook Form, Zod Validation
API Integration:	RESTful APIs, Axios, Fetch, Optimistic UI Updates, JWT Auth Flow, Postman
Build & Performance:	Vite, Webpack, Lighthouse Audits (90+), Code Splitting, Virtualization, Git, GitLab CI/CD

PROFESSIONAL EXPERIENCE

Techstuff Private Limited — **May 2025 – Present**
Frontend Engineer — *Indore, India*

- Led frontend development of core interactive modules using React.js, Next.js, and TypeScript, delivering 100% mobile-responsive interfaces.
- Collaborated with backend engineers to establish robust REST API contracts, payload schemas, and validation rules prior to UI development.
- Engineered a library of 20+ accessible, reusable React components (date pickers, data tables, modals, dropdowns) cutting feature turnaround by 35%.
- Slashed client bundle size by 40% and improved Largest Contentful Paint (LCP) from 3.4s to 1.3s via code splitting, dynamic imports, and lazy loading.
- Implemented global state architecture using Redux Toolkit and Context API, eliminating prop drilling and optimizing component re-renders.

Techstuff Private Limited — **Feb 2025 – May 2025**
Frontend Developer Intern — *Indore, India*

- Translated Figma prototypes into clean, responsive React components using Tailwind CSS and modern CSS3 flex/grid layouts.
- Integrated REST APIs into production screens with proper loading skeletons, error states, and empty-state placeholders.
- Standardized team Git version control practices across branching, pull requests, and code reviews, reducing deployment defects.

KEY PRODUCTION PROJECTS

Mercanis — B2B Procurement Platform — Enterprise Client Project
Stack: SvelteKit · Next.js · TypeScript · NestJS · MongoDB

- Built core user interfaces for B2B procurement portal; owned feature implementation from Figma specs to production release.
- Engineered complex multi-step requisition forms with real-time field validation, draft autosaving, and dynamic row addition.
- Implemented table virtualization for large catalogs, keeping render times under 16ms even with 5,000+ items.

Payroll & HR Management Platform — Internal Enterprise SaaS
Stack: Next.js · TypeScript · NestJS · MongoDB · MCP

- Developed responsive Next.js frontend with Redux Toolkit for centralized employee records, leave requests, and payroll tracking.
- Implemented client-side route protection and JWT authentication with automatic silent token refresh.
- Built custom Model Context Protocol (MCP) server bridging internal calendar data with developer productivity workflows.

EduMiracle — Coaching ERP Portal — Full-Stack EdTech
Stack: Next.js · TypeScript · Tailwind CSS · MongoDB · Gemini AI

- Designed and built complete frontend for coaching institute ERP using Next.js, Tailwind CSS, and Recharts.
- Created interactive student exam dashboard with real-time countdown timer, question palette, and score analysis.
- Integrated Gemini AI API for automated student doubt clarification with clean chat interface and markdown rendering.

EDUCATION

B.Tech in Computer Science & Engineering — **2020 – 2024**
Barkatullah University Institute of Technology (BUIT), Bhopal — **CGPA: 7.89 / 10**
